Summary:

Computer Science and Engineering undergraduate specializing in Cybersecurity and Networking with strong skills in full-stack web development. Proficient in building responsive, performance-focused web applications using React.js, Tailwind CSS, Node.js, Express.js, and MongoDB/SQL. Interested in integrating secure coding practices into modern web applications.

Education

ITM (SLS) Baroda University	July 2024- July 2028
B. Tech in Computer Science and Engineering (Cybersecurity and Networking)	1 st year CGPA: 8.4

Experience

Freelance Web Developer | Hotel Bazar

[GitHub](#) / [Live App](#)

- Designed and developed a full-stack e-commerce platform using Next.js, Tailwind CSS, Node.js, Express.js, and MongoDB.
- Built RESTful APIs for product management, authentication, cart, and order processing
- Implemented role-based access control and secure authentication mechanisms
- Followed software engineering best practices including modular code structure and version control using Git

Projects

Portfolio Website: ReactJS, Tailwind CSS

[Live App](#)

- Designed and developed a personal portfolio website to showcase projects, skills, and professional background.
- Utilized JavaScript to create a modern, component-based, and single-page application.
- Ensured a fully responsive design for optimal viewing on all devices.

Scramble Flow: ReactJS, Tailwind CSS

[GitHub](#) / [Live App](#)

- a clean, feature-rich 3x3 timer and scrambler built for Speed Cubers.
- Built a robust Vanilla JavaScript logic for timer accuracy, state management, and scramble generation, with client-side CSV export for easy solve data analysis.

Skills

Languages: Python, C, JavaScript, SQL, TypeScript

Frontend: HTML, CSS, React.JS, Tailwind CSS, ReactNative

Backend: Node.JS, Express.JS

Databases: SQL and MongoDB

Tools: Git, GitHub, Postman
